BIO

As a passionate and detail-oriented web developer, I specialize in front-end and back-end development. I create intuitive and dynamic websites that provide a seamless user experience, while also ensuring robust server-side functionality. With a strong foundation in HTML, CSS, JavaScript, and various frameworks, as well as backend technologies like Node.js and Databases (SQL/NoSQL), I'm driven by a problem-solving mindset and love tackling challenges on both ends of development. Whether it's optimizing site performance, implementing creative features, or building scalable backend systems, I'm always eager to learn and stay updated with industry trends. Also, coding is just FUN!

SOME OF MY SKILLS

Angular	HTML & CSS	Node js and Express
Git	Node js and Express	Jasmine (Testing)
SQL	Javascript	Critical Thinking

PROFESSIONAL EXPERIENCE

English Haven (Remote)

June 2024 - Present

TEFL Teacher

my role involves designing engaging lesson plans that cater to diverse student needs and proficiency levels, focusing on grammar, vocabulary, reading, writing, speaking, and listening skills. I create interactive activities and materials to keep lessons dynamic, while assessing student progress through regular feedback, quizzes, and exams.

Momentum (Remote)

March 2024 - May 2024

Web Development Intern

Design and Development: Crafted intuitive and responsive user interfaces using HTML, CSS, and JavaScript frameworks like Angular.

Collaboration: Collaborated with back-end developers to integrate APIs and ensure smooth data flow between the front-end and back-end systems.

Testing and Debugging: Conducted thorough testing and debugging to identify and resolve issues, ensuring the application is robust and reliable.

Umuzi/Momentum (Remote)

June 2023 - February 2024

Web Development Learner

Foundations of Programming

Front End Web development (HTML, CSS, Javascript)

Backend Development : (PostgreSQL, Node JS, Express)

Full-Stack Delivery (Jasmine: Unit testing, Web site hosting)
